REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination.

According to the invention, both individual identification information and group value information are stored in each of the electronic storage media. On the other hand, individual identification information of invalid storage media are held in the form of lists on a group value basis. When an electronic storage medium is; to be used, a list of a group corresponding to the group value of the storage medium is referenced. If the storage medium is not registered in the reference list, the storage medium is determined to be a valid electronic storage medium. If the storage medium is registered in the list, the storage medium is determined to be an invalid one.

These features are not found or suggested in the newly cited references of Takayama, Campana or Makus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
